

Membership

February 2026

98.37% great job New Mexico! We are so close to 100%, keep up the membership!

Again congratulations to those Auxiliaries that have reached 100% and 100% plus. Like I said at Mid-Winter, membership the program that never stops, we should always be recruiting and retaining members. Try to bring back the members who are no longer active, reach out to them and invite them to events. As far as the new members get them involved and active, don't just sign them up and let them go on their way. Invite them to meetings, tell them about our programs, see if something sparks their interest and help them learn about our great organization.

Don't forget the new membership application is live, any new members that filled out an old application will need to fill out the new one to be accepted. If you need help with the new application feel free to reach out to me or our department treasurer Penney Howard. We had great discussion at Mid-Winter regarding the application, eligibility, and members.

Remember if you or anyone has questions please reach out and ask, we are here to help you. If we don't know the answers we will find someone who does and get back to you.

I had asked before Mid-Winter members to submit names of comrades that have recruited Auxiliary members that way we could recognize them- no names were submitted. If any of your comrades have recruited auxiliary members please submit their names and how many they recruited to me by May 15th.
